Subject: RE: Gold King Mine FOIAs (Special Weekly Report)

We are moving as quickly as we can to work with HQ staff to populate as much responsive data on the Agency's public Webpages to respond to several of the requests. Requests involving correspondence (Mail, email, text messages, hard copy and electronic documents, etc.) will need to be reviewed to determine if any exemptions apply to any information contained in those documents, and as a result, take additional time.

Our regional staff worked quickly to ensure all key personnel from all Regions and programs gathered to come up with a solid strategy.

I am sure it will change over the next few days, but am confident we will prevail. The staff support in moving forward has been nothing short of amazing.
